## Dining culture.

A step closer to the south with the new MILANO cutlery model.

---

## Pleasure.

A well-laid table helps us enjoy food in style. After all, everyone knows that we also eat with our eyes.

---

## Experience.

We have rethought the buffet for you. With WMF Quadro. A new dimension in food presentation.

---

# Dining culture. Pleasure. Experience.

## Moments of enjoyment right down the line.

It's a scene you know so well. Lively conversation fills the room, atmospheric sounds in the background. It's all going on in the kitchen. Sizzling sounds, appetizing aromas. The bar is doing brisk business. Glasses are clinking and corks are popping. Meals wend their way to the guests. An absorbing atmosphere surrounds your team, your guests and you.

Savor these moments, as they are the very ones that make life great. When you have the confidence of knowing that everything is running as it should. Every part of the operation is working smoothly. The confidence of knowing that you have reliable partners at your side, who will work with you to turn your plans into reality and take them forward.

We make sure the right tools are to hand. Or, rather, in your hand. After all, cutlery is not just cutlery. As a frequently undervalued means to an end, it does much more than just transport food into people's mouths. The quality and elegance of the tableware is something that your customers

subconsciously appreciate. It plays an essential role in your guests' enjoyment of their dining experience. Whether it's rustic charm, modern flair, urban conviviality or purist design, we have high-quality cutlery in our portfolio to match any style.

And it is not only our table settings that help you make a statement. This year, WMF is redefining the buffet scene for you.

WMF Quadro. The key to individuality lies in consistent implementation of the GN standard: anything is possible, since all the elements are equally functional. Equally intuitive. Equally modular. This opens up new possibilities for you.

You can look forward to a versatile combination of our highlights for 2017/18. Be inspired as you delve into the world of WMF.

# WMF Professional cutlery collections.

The right accompaniment for any look.

**A**s a prominent detail of a well-laid table, cutlery underlines the individual character of your catering concept – either through discreet understatement or striking visual form.

The choice of cutlery is always based on your establishment's architecture, interior design and menu: whether refined, rustic, Mediterranean, minimalist or avant-garde. Whatever your style, you'll find the right forms, colors and structures in the diverse cutlery range from WMF Professional.

When creating a new collection, the WMF designers always seek to achieve a harmonious unity of esthetics, feel and function. After all, it is not just the look that defines high-quality cutlery – it also needs to

feel right in your hand, to be robust and durable. During the development process, we do not just take our lead from classic styles. We also consider current trends and feedback from our customers.

This has resulted in the creation of a diverse portfolio over the decades that enables us to reflect your own very personal design preferences.

# Cutlery is not just cutlery.

Whether you have opted for a modern style or a more traditional one, what matters is that your cutlery can stand up to scrutiny from even your most discerning guests. To pass this test, you can rely on three letters that have been synonymous with an uncompromising approach to quality since 1853: WMF.

Milano stands for Italian zest for life. Its flattering form is faintly redolent of the country's inviting terraces and it fits nicely into the overall Mediterranean look with its picturesque style.

# Solid

Solid has a dignified, yet extraordinary appearance and can complement a range of different looks for authentic catering concepts. With its powerful forms and long tines, this collection is perfectly balanced.

# Nordic

Nordic stands out thanks to its cool elegance and unusual handle length. In a minimalist interior setting, its clear design fits harmoniously into the overall look.

Signum combines the traditional rounded handle with clear lines, helping to create a modern, yet familiar table ambience in all kinds of interiors.

# Signum

## Mix & Match par excellence: a multitude of materials, structures and colors in harmony.

The laid table in a restaurant is the stage on which the chef or restaurateur sets forth their culinary creations. Along with the table decoration, the porcelain, cutlery and glassware will ideally form a perfect unity for a stylish presentation of the meal, while also highlighting your overall room design. Here, the CultureCup coffee series plays a winning role: a perfect interplay of porcelain, glass and stainless steel.
