Tajine

**The magic of Northern Africa.
Captured fresh in our new tajines.**

The traditional casserole from Northern Africa with its conical lid is made entirely of stainless steel, eliminating the need for soaking or tempering. Use it for a particularly nutrition-saving method for cooking meat, fish and vegetables. It is very easy to use, thanks to its ergonomically designed handles. It is dishwasher-safe and can be used on ceramic, electric, gas and induction stoves. And by the way: the pan can also be used alone as a serving pan.

**Delectable flavour.
Gentle and healthy cooking, with our
new Round Steamer.**

The stainless steel pan with its tight-seal lid of unbreakable glass is the perfect utensil for gently slow-cooking or stewing meat, fish, poultry and vegetables without a loss of nutrients. The thermometer built into the lid can be used to monitor the cooking process, but it can also be easily removed. A grate with a silicone overlay keeps small-sized foods from slipping through the grate and sticking to the bottom of the pan.
