

Variomet with plate

Variomet with stew bowl

Variomet cross-section

FOR LONG HOLDING TIMES UP TO APPROX. 50 MINUTES

- 18/10 stainless steel base part, double-walled, homogeneously welded, with heating core welded fully to base for optimum heat transfer.
- Aesthetic presentation of meals thanks to flat construction of the base part.
- Perfect fit for all standard plates up to 26 cm (10¼ in.) in diameter and stew bowls up to 19.4 cm (7¾ in.) in diameter due to different base rings.
- Thermoplastic cover, double-walled insulation, homogeneously welded, with reinforced foam core.
- The insulated, double-walled cover can be easily manipulated thanks to a gripping strip that runs all the way round.

- Insulating cover available in different colours.
- The high-quality finish ensures durability and an attractive look.

Thermoplastic insulating set for soup

- For all common porcelain soup bowls with 0.5 l capacity.
- Soup bowls are easy to insert and remove, making handling simple.

Hygienic covering of salad and dessert dishes with extra-thick, high plastic lids or cooling lids.

VARIOCOOL with insulating cover

- This optimal cold temperature retention system is perfect for bringing the ideal evening meal of cold cuts (such as meats and cheeses) to patients, hospital residents or retirement homes at the perfect temperature.
- Also ideal for optimal cooling of salad dishes, which can be placed between hot dishes for a lunch time meal on a tray trolley without any concern for temperature.
- Excellent cooling properties of the cooling base part on account of the very large cold capacity.
- Aesthetic presentation of meals thanks to flat construction of the cooling lower.
- Perfect fit for all standard plates up to 26 cm (10¼ in.) in diameter and bowls up to 19.4 cm (7¾ in.) in diameter.
- Insulating cover double-walled, insulated, homogeneously welded with reinforced foam core.
- The cover can be easily manipulated thanks to a gripping strip that runs all the way round.
- All components are dishwasher-safe and can be easily stacked to save space.
- The high-quality finish ensures durability and an attractive look.

VARIOCOOL with single-walled plate cover

- Ensures the ideal temperature with only two parts. Also includes a single-walled plate cover.
- Tried and tested cold temperature retention over many hours thanks to a cooling base part made of plastic with a special cooling core. Ideal when serving evening-sized portions at HACCP standard temperatures.
- The cover can be easily manipulated thanks to a gripping strip that runs all the way round.
- Aesthetic presentation of meals thanks to flat construction of the cooling lower.
- Perfect fit for all standard plates up to 26 cm (10¼ in.) in diameter and bowls up to 19.4 cm (7¾ in.) in diameter.
- All components are dishwasher-safe and can be easily stacked to save space.
- The high-quality finish, extra-thick material ensures durability and an attractive look.
- The aesthetic effect is further enhanced by choice of various eye-catching colours.
- Transparent plate covers give a clear view of the ready-to-serve dishes and keep them covered at the same time.

Before using the first time, it is recommended to clean the products with water due to hygienic reasons
